

WEBSITES • CLINICS, BROKERS, TRADES

Your website vs. the one I'd ship this week.

WHAT YOU HAVE

- WordPress + a dozen plugins to patch
- contact form emails a dead inbox
- nobody has checked it on a phone since launch

WHAT YOU GET

- ✓ zero-dependency static build, nothing to update
- ✓ form posts straight to your phone in under a minute
- ✓ built mobile-first, tested on both before you see it

send me your URL – I'll show you the concept before you pay

WEBSITE REDESIGN • HOW IT RUNS

From your URL to a live site in five days.

Day 0

you send the URL

Day 1

desktop + mobile concept on a preview link

Day 2

your edits, one round

Day 5

live on your domain, hosted free

no discovery invoice, no 12-week timeline

WHAT A STATIC SITE COSTS TO RUN

The cheapest site is the one with nothing to break.

\$0

hosting on Cloudflare Pages, global CDN included

0

plugins, themes or logins to keep patched

1

person who answers when something needs changing

your repo, your domain, walk-away terms

MYSTERY-SHOP YOUR OWN WEBSITE

Four checks. Fail one, I rebuild it.

● ● ●

```
$ open yoursite.com --device phone --network 4G
? is the phone number tap-to-call
? does the form reach a human today
? can a stranger tell what you do in 5 seconds
→ any 'no' is a lead you paid for and lost
```

*I run this on your site for free – reply
'audit'*

WEBSITES FOR LOCAL SERVICE BUSINESSES

I don't sell pages. I sell the ninety seconds between a stranger landing on your site and them tapping call. Everything on the page either shortens that, or gets cut.

OUTBOUND • B2B CONSULTANCIES & AGENCIES

48,000

cold emails a month, from one system

4%+ reply rate. \$1M+ qualified pipeline. A 4-SDR team replaced at roughly a tenth of the cost. Every send idempotent, every reply caught.

published case – stress-test it on the call

BEFORE YOU HIRE THE NEXT SDR

Four SDRs vs. one outbound system.

4 SDRS

- ~\$200K/yr before tools
- ramp, churn, re-hire
- volume capped by hours

ONE SYSTEM

- ✓ ~1/10 of the running cost
- ✓ 48k emails/mo, zero duplicate sends
- ✓ replies land in your CRM, flagged

I'm not against SDRs – I'm against paying them to copy-paste

OUTBOUND THAT DOESN'T GET YOU BLACKLISTED

Five things inside every outbound system I ship.

- ☒ Warmed inboxes on separate sending domains
- ☒ Lists verified before a single send
- ☒ First lines written from each prospect's own website
- ☒ Reply detection: webhook + poll, nothing missed
- ☒ A kill switch per campaign, one flag

boring plumbing is why the pipeline number is real

ONE OUTBOUND RUN, START TO FINISH

From a niche + city to replies in your CRM.

● ● ●

```
$ scrape --source maps --niche "dental clinics" --city  
Dubai
```

- ✓ emails verified, bounce risk removed
- ✓ first line written from each clinic's site
- ✓ pushed to warmed inboxes, paced per domain
- replies tagged and synced to GHL / HubSpot

Maps, Apollo or your own list – same pipeline

THE THREE OUTBOUND OBJECTIONS

“But cold email is dead.”

4%+

reply rate on 48k sends/mo — it isn't dead, it's badly done

0

duplicate sends across campaigns, by design

1 flag

stops a campaign the second deliverability dips

AN INBOUND ENQUIRY'S FIRST TEN MINUTES

What happens after someone contacts you.

0:00

form, call, WhatsApp or email arrives

0:05

scored against your ICP, routed

0:45

reply in your voice, from your number

10:00

qualified, booked, CRM updated, you alerted

INBOUND WITHOUT A FRONT DESK

Everything a receptionist does, minus the lunch break.

- ☒ Answers every call, 24/7, on the first ring
- ☒ Chat + WhatsApp agent on the site, same brain
- ☒ Asks your qualifying questions, not generic ones
- ☒ Books straight into your calendar
- ☒ Transcript and summary in your CRM, every time

Vapi or Retell, GHL or HubSpot – your stack

INBOUND • CLINICS, BROKERS, AGENCIES

Where your enquiries go today vs. after.

TODAY

- voicemail after 6pm
- leads in four inboxes
- ‘we’ll call you back’ – sometimes

AFTER

- ✓ answered on the first ring, every hour
- ✓ one CRM, one timeline per lead
- ✓ qualified and booked before you see it

the system never has a bad day

HOW THE FREE AUDIT WORKS

I fill your client's form. Then I wait.

...

```
$ submit quote-form client-site.com 10:14
```

```
... 10:44 no reply
```

```
... 13:14 no reply
```

```
... 17:02 still nothing
```

→ that was a paid lead. Someone's agency got blamed.

LEAD-GEN AGENCIES • THE 'BAD LEADS' CALL

Why clients churn, and the fix.

WITHOUT

- lead sits 3 hours in an inbox
- client calls once, gets voicemail
- “your leads are bad” — contract ends

WITH SPEED TO LEAD

- ✓ reply in under 60 seconds, every lead
- ✓ qualified in 3 questions, booked
- ✓ client sees booked calls, renews

white-label it across every client you run ads for
