

Debanjan Mazumdar

Senior Product Manager | Product Discovery • Roadmap & OKR • Data-Driven Delivery • B2B & B2C SaaS

debanjan186@gmail.com • 0755807658 • Paris, France • [linkedin.com/in/dmazumdar](https://www.linkedin.com/in/dmazumdar) • github.com/dmazumdar186

Senior Product Manager with **15 years** delivering data-intensive B2B and B2C products across SaaS, e-commerce and AI-powered platforms. I own the full product lifecycle — continuous discovery (user research, JTBD, quant/qual) → roadmap and OKRs → agile delivery → post-launch measurement — turning ambiguous business needs into shipped, measurable outcomes. Fluent with both engineering and executive stakeholders; I de-risk delivery because I can frame the business case and read the build.

Impact: +45 % feature adoption • +20 % CSAT • \$1M+ qualified pipeline delivered

PROFESSIONAL EXPERIENCE

Senior Product Manager — AI & Data Intelligence — Wiser Solutions

B2B SaaS · Market Intelligence, Paris | Nov. 2022 – Present

- **+45 % feature adoption and -55 % p95 latency** — by owning the end-to-end lifecycle of data & AI capabilities (triage, recommendation, RAG support, smart alerting): PRDs with acceptance criteria, data-readiness checklists and API contracts.
- Led continuous discovery (user interviews, JTBD, quant/qual), defined OKRs and aligned 5 cross-functional squads on a prioritized roadmap with go/no-go gates and rollback plans — driving **+40 % BU adoption and +20 % CSAT** on a global rollout.
- **-25 % in-sprint ambiguity and +25–30 % delivery precision** — by running experimentation (A/B tests, feature flags, phased rollouts) on Mixpanel usage/quality/drift dashboards, with DoR/DoD, pre-prod QA and GDPR/privacy-by-design.

Independent Product Consultant — ProdCraft (AI Product Studio)

Paris (Freelance, alongside Wiser) | Jan. 2026 – Present

- **\$1M+ qualified pipeline and ~\$200K/yr of SDR cost replaced** — by taking an autonomous outbound product from discovery to launch for a high-velocity outbound consultancy, with reply automation and a 3-hour hot-lead SLA.
- **\$85K processed in the first 3 months**, after co-building and launching a two-sided Stripe Connect marketplace (React + Node + Postgres) with a partner agency — owning scoping, roadmap and go-to-market.
- **12+ products shipped end-to-end** across independent and client work, at a **<30-day median** — including a multilingual CV-optimizer SaaS and a code-audit CLI — owning discovery, PRDs and release gates.
- One senior operator on every engagement, from user discovery to launch — owning the roadmap, data contracts and stakeholder alignment; all code and IP handed to the client.

Product Manager — Data & Recommendation Products — InfoTnT

B2B SaaS, Paris | Jun. 2021 – Nov. 2022

- **-35 % iteration cycles and +25 % post-launch product-market fit** — by leading structured discovery (user interviews, usage analysis, JTBD workshops) and translating insights into a prioritized roadmap and backlog.
- Authored detailed PRDs and user stories with acceptance criteria, data contracts and API constraints, and standardized experimentation playbooks — enabling reliable squad delivery and preventing regressions.

Senior Data Product Owner — Pitney Bowes

Enterprise SaaS, Pune | Apr. – Sep. 2019

- **-20 % time-to-market** — by mapping cross-squad dependencies, clarifying exit criteria, tightening Scrum cadence, and adding pre-prod checklists and structured RAID reviews.

Senior Data Product Owner — Evolent International

Healthcare SaaS, Pune | Jun. 2018 – Feb. 2019

- **+30 % platform scalability and performance** — by introducing SLA/SLO frameworks to arbitrate run/change priorities and embedding governance and QA checkpoints into the delivery flow.

Senior Product Owner — Communications Platform — Avaya India

Enterprise Software, Pune | Jul. 2015 – Mar. 2018

- **+30 % delivery velocity and -25 % requirement instability** — by strengthening Scrum discipline, structured sprint reviews and tight OKR ↔ roadmap alignment across 3 squads.

2010 – 2015 : Software Engineer (Tata Consultancy Services, Bengaluru | Nov. 2010 – Mar. 2013) → QA Engineer / Release Coordinator (IDrive India, Bengaluru | Apr. 2013 – Jul. 2015) — foundations in distributed systems, QA and release management

SKILLS

Product Mgmt :	Product Discovery (User Research, Interviews, JTBD, Quant/Qual) • Product Strategy & Vision • Roadmap & OKR • PRD & User Stories • Acceptance Criteria • Backlog Prioritization (Value/Risk/Effort) • A/B Testing & Experimentation • Product Lifecycle • Customer Experience (UX) • GTM & Launch Enablement • KPI/Metric Design • Stakeholder Management • Product Ownership & Leadership
Agile & Delivery :	Scrum • Kanban • Sprint Planning & Retrospectives • DoR/DoD • Release Gates & Rollback • Cross-Functional Collaboration & Leadership • Dependency Management • Pre-Prod QA
Data & AI :	Data Contracts & API Readiness • Analytics (Mixpanel) • SQL • Drift & Quality Monitoring • AI/GenAI Product Design (LLM, RAG, Agentic AI) • ML Evaluation Frameworks
Governance :	GDPR / Privacy-by-Design • Access Control • Audit Trails • Ethical AI • Regulatory Compliance
Tools :	Jira • Confluence • Figma • Miro • Mixpanel • Amplitude • Notion • SQL • N8N • Make • GenAI APIs (OpenAI, Anthropic, Google)

EDUCATION

MSc International Strategic Business

Toulouse Business School, Paris | 2019–2021

BE Information Technology Engineering

CMR Institute of Technology, Bengaluru | 2006–2010

LANGUAGES

English : Bilingual (C2) • French : Bilingual (C2) • Hindi : Native • Bengali : Native

SELECTED PROJECTS

- CV Optimizer** (live SaaS) — multilingual app that scores a CV against a job description and generates an ATS-optimized CV & cover letter; product-owned end-to-end (discovery → delivery).
- Two-sided marketplace** (with a partner agency, under NDA) — Stripe Connect payments platform processing **\$85K in the first 3 months**; React + Node + Postgres.
- ProdCraft** (AI product studio, prodcraft.fyi) — independent studio shipping production AI products for founders and teams at a **<30-day median**, from discovery to launch.
