Senior Product Manager on AI and data products. Continuous discovery and customer interviews first, then a roadmap with outcomes attached and a launch that gets measured. PM since 2021, on GenAI at Wiser Solutions since 2022; before that four years as a Product Owner and five as a software engineer. Prototypes with Claude Code before writing the spec; works through trade-offs with engineers and roadmap with the CPO.

Paris-based, bilingual English and French, remote-friendly.

PROFESSIONAL EXPERIENCE

Senior Product Manager, AI & Data Intelligence — Wiser Solutions

B2B SaaS · Retail & Digital-Commerce Intelligence · Paris | Nov 2022 – Present

- Own the AI product area end to end: a RAG assistant on OpenAI and Anthropic APIs, recommendations and smart alerting on a platform used by retail and brand customers. Problem framing and user research with customers, roadmap with the CPO, PRDs, launch, adoption tracking. Feature adoption up **45%** after the assistant's second release; p95 latency down **55%**.
- Ran the company-wide GenAI rollout with a **$150K** budget: build-vs-buy across OpenAI, Anthropic and Google, go/no-go reviews with the CPO and business-unit heads, onboarding of each unit. Adoption up **40%** across BUs, CSAT up **20%**.
- Coordinate **5** squads (engineering, design, data) across Paris, the US and India on one prioritised roadmap, with no reporting line into any of them.
- A/B tests and feature flags, usage and funnel analytics (Mixpanel, Amplitude), LLM evaluation sets and guardrails, GDPR by design.

Founder & AI Product Consultant — ProdCraft

Independent AI product studio, Paris (alongside Wiser) | Jan 2026 – Present

- Side practice, evenings and weekends: **12** small AI products for clients, including an agentic outbound pipeline on Cloudflare Workers that replaced about **$200K/yr** of manual work, and a Stripe Connect marketplace.

Product Manager, Data & Recommendation Products — InfoTnT

B2B SaaS · Paris | Jun 2021 – Nov 2022

- Introduced continuous discovery (customer interviews, JTBD, usage analytics) and a prioritised roadmap to a team that had neither. Shorter iteration cycles and a **25%** higher product-market-fit survey score.

2019 – 2021: MSc International Strategic Business, Toulouse Business School, Paris (full-time).

Senior Product Owner — Avaya (2015–18) · Evolent (2018–19) · Pitney Bowes (2019)

Enterprise communications · Healthcare SaaS (regulated) · Logistics SaaS · Pune | 2015 – 2019

- Four years as Product Owner on platform and data products, up to **3** Scrum squads at a time: backlog, sprint goals, SLA/SLO framework, RAID risk reviews, OKR-to-roadmap alignment. At Avaya, delivery velocity rose **30%**; at Evolent the work ran under healthcare compliance and privacy rules.

2010 – 2015: Software Engineer, Tata Consultancy Services, then QA / Release Coordinator, IDrive. Distributed systems and release management.
